ICH Shenzhen2025 Predicted data

The 16th Shenzhen International Connector, Cable Harness & Processing Machinery Exhibition 2025 (“ICH Shenzhen 2025”) will be held at the Shenzhen World Exhibition & Convention Center from August 26 to 28, 2025. This premier event, themed “Smart Industry, Connecting the Future”, is a “one-stop” industry ecosystem showcase. The exhibition will feature the latest innovations in the connector and cable harness processing sector. It covers new products, technologies, materials, processes, equipment, and solutions in major applications, including 3C electronics, automotive manufacturing, electrical appliance manufacturing, medical devices, new energy, aerospace, railway and rail transit, telecommunications, semiconductors, lighting, industrial automation, photovoltaic storage and charging, and electric power. ICH Shenzhen 2025 aims to highlight emerging trends and directions in future technologies, foster in-depth exchanges and collaboration across the industry chain, inject strong momentum into the connector and cable harness processing industry, promote industrial upgrading, and share growth opportunities.

The International New Energy Connector, Cable Harness & Processing Technology Summit will be held in conjunction with the exhibition and will focus on the development trends and advanced manufacturing technologies of connectors and cable harnesses in the new energy vehicle and photovoltaic storage and charging industries in the context of the “carbon peaking and carbon neutrality” goals.

Having built a legacy of 15 successful editions, ICH Shenzhen has consistently grown alongside the connector and cable harness processing industry. It has become China’s most influential event in the field, driving industry development and serving as a major trendsetter. With over 80% repeat exhibitors, underscoring the recognition of the ICH brand, as well as its professionalism and impact, the 2025 edition is expected to feature over 700 companies presenting tens of thousands of new products. Leveraging the enormous market demands in China and globally, the event aspires to establish itself as a premier business platform for brand showcasing, trade negotiations, and technical exchanges.

Review of the Previous Edition

The previous edition was held from August 28 to 30, 2024, at the Shenzhen World Exhibition & Convention Center. As an international trade platform for the entire industry chain, the event attracted nearly 700 leading companies from across the globe and welcomed 36,868 visits by professional visitors, including 772 by overseas visitors, over its three-day run. Driven by the global development of industries such as electronics, electrical appliances, new energy vehicle, photovoltaic storage and charging, and industrial manufacturing, along with China’s intensified subsidy policies supporting large-scale equipment renewal and trade-in of home appliances and motor vehicles, the demand for connectors and cable harnesses experienced explosive growth. The exhibition showcased a dazzling array of the latest innovations in connector manufacturing and cable harness processing technologies at home and abroad, demonstrating a robust effort to seize emerging markets. Representative exhibitors included: JVT、TE、Hacint、Guanju、JMK、Busbar、Himinsen、Wcon、Hongsheng、United Winners、SESO、GEM、SBT Ultrasonic、BBJconn、Woer、KST、Kuaili、Weile Electric、Weyer、Lianhe、E-plus、CAROL、HellermannTyton 、Zhongyao、Original & Automatic、WENDA、Eagleyes、Skurray、Molex、L-com、Contac Class.

Some participating brands

Exhibits Range

1、 Connector and Connector Assembly

Terminal connector, waterproof connector, explosion-proof connector, wire connector, circular connector, cable connector, RF coaxial connector, automotive connector, new energy connector, electronic connector, printed circuit connector, power connector, special connector, industrial connector, rectangular connector, electrical connector, heavy-duty connector; connector assembly, plug, socket, switch, terminal, connector contactor, IC round hole socket, pin, pin header, connector assembling and non-standard automation equipment TYPE-C welding/testing/assembling equipment, pin equipment, tester, silver point riveter, welder, injection molding machine, etc.

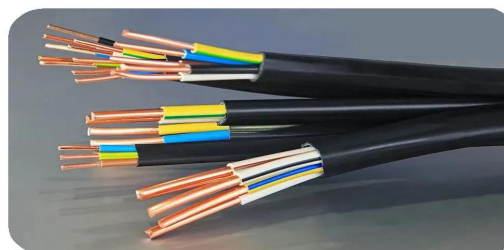

2、 Cable Wiring & Processing Machinery

Wire cutter and twister, wire cutting, punch press, integrated harness manufacturing system, crimping die holder, terminal die, length detector, wire end processing equipment, pipe cutter, terminal machine, wetting machine, injection molding machine, computer peeling machine, wire equipment tester, terminal crimping machine, wire-stripping and terminal crimping machine, ultrasonic welding machine, wire processor, terminal hardware test instrument, AC/DC automatic production and processing equipment, electronic wire automatic production and processing equipment, harness tester, plug tester, wire riveting press, terminal section detector, peel strength tester, ink-jet printer and other plug cord/data cable/electronic wire/home appliances/new energy/automotive wire harness processing equipment, and other phase equipment and accessories

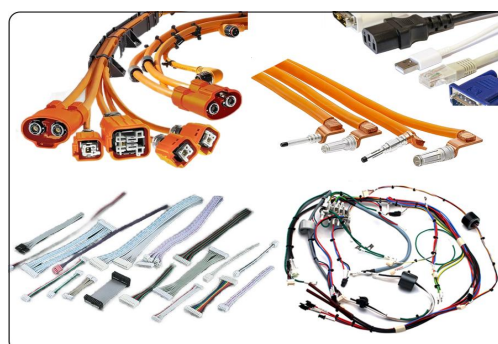

3、 Wire and Cable

Wire and cable, optical fiber cable, electronic wire, cable accessories, optic cable accessories, wire production and refining machinery and cable processing equipment, cable former and strander, fastener and spring manufacturing and finishing machinery, processing equipment, auxiliary processing materials, wire and cable/optical fiber cable materials, measurement and control technology, testing engineering related fields

4、 Wire Harness and Wiring Equipment

Wiring terminal, insulation sheath, wire and insulation wrapping materials, etc.; electronic wire: power line, audio and video cable, digital cable, computer peripheral cable, automotive harness, wire, telephone wire, harness, binding wire, electromagnetic wire, sheathing wire, high-temperature heat-resisting wire, etc.; wiring equipment: nylon cable ties, wiring duct, wiring sign, cable lug, wiring terminal, wire clip, fixed head, retaining bracket, etc.

Booth Fee Schedule (Prices are exclusive of taxes; exhibitors are required to pay a 6% tax for VAT special invoices)

Booth Type	Domestic Exhibitor (Standard Booth with Double-sided Opening)	Domestic Exhibitor (Standard Booth with Single-sided Opening)	Overseas Exhibitor
Standard Booth	¥ 14800 元 / 9 m ² RMB 14,800/9m ²	¥ 13800 元 / 9 m ² RMB 13,800/9m ²	USD 3800 元 / 9 m ² USD 3,800/9m ²
Indoor Raw Space (minimum 36m ²)	¥ 1380 元 / m ² RMB 1,380/m ²	¥ 1380 元 / m ² RMB 1,380/m ²	USD 380 /m ² USD 380/m ²

Exhibition booth style

A、Indoor open space

The minimum rent for indoor bare space is 36 square meters, and the organizer only provides empty space. Exhibitors are responsible for decoration and construction, and all costs involved shall be borne by the exhibitors themselves;

B、Standard booth

Standard booth configuration of 9 square meters (3M * 3M) includes: one consultation desk, two folding chairs, one 220V power socket, two spotlights, company Chinese and English fascia boards, carpet covering the booth, and one garbage bin; by the exhibitors themselves;
